

Health and Safety Statement

October 2019

1.1. Statement of intention

The Multiple Sclerosis Society (the MS Society) is committed to the continual improvement of the health, safety and wellbeing of all volunteers and employees who work with us, those using our services and anyone else affected by what we do. We all have responsibilities to take reasonable steps to ensure our own health and safety, and that of others.

Health and safety considerations are taken into account in all our decisions. As Chief Executive I will ensure the Board of Trustees is kept informed of key health and safety matters. To help us satisfy our legal responsibilities competent people will be recruited and where appropriate, outside experts brought in as required to manage health and safety issues.

We will ensure we comply with all relevant legislation to provide a safe work environment. This will be achieved if everyone plays their part.

We are committed to promoting active co-operation between trustees, management, employees and volunteers to create the safe environment that we all deserve.

The MS Society's policy will be reviewed annually and updated as required in response to changes within the MS Society or developments in legislation and best practice.

A handwritten signature in black ink, appearing to read "Nick Moberly". The signature is written in a cursive, flowing style.

Nick Moberly
Chief Executive
